Made in USA

Sure-Foot's MASTER STOP™ Aluminum Tape Treads are a quick, permanent and attractive solution for stair renovation projects.

Master Stop® Tape Treads are an eye catching, resilient, high quality aluminum extrusion that is inlayed with any of our anti-slip tape colors. These treads are used on renovation projects to deliver maximum safety and durability while providing a look that compliments todays building designs. Master Stop® Tape Treads are created using heat treated, exterior grade 6063 T5 aluminum, inlayed with any of our anti-slip tapes. Available in 2.75" & 7.5" depth's and lengths up to 144", this product will meet and exceed OSHA and ADA recommendations for slip resistance on wet or dry surfaces.

MASTER STOP™ Aluminum Tape Treads Advantages

Treads can be inlaid with any of the Master Stop® Anti-slip tapes

Our 2.75" tread is single cavity with one tape of your choice

Our 7.5" tread is a double cavity with two tapes of your choice

All treads come with pre-drilled counter-sunk holes

Before tread installation, surface must be level, smooth, dry and clean of debris

Commercial adhesive and fasteners should be used when installing the treads

With 4 distinct blacks and 12 assorted colors (including glow-in-the-dark), customizing to your exact needs is simple. The full line of Master Stop tapes is available for inlay—providing a variety of colors, grit materials and custom capabilities.
