Sure-Foot's Anti-Slip FRP Walkway Panels provide a durable, permanent anti-slip product to fit virtually any structurally sound surface.

Fiberglass (FRP) Walkway Panels are lightweight and ideal for use on floors, ramps, inclines, mezzanines and any slippery walkway. To simplify the installation process, our walkway panels are custom-made to the exact dimensions, surface textures and colors requested.

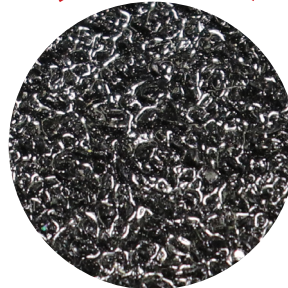

» Walkway Panel Specifications

Sure Foot's Fiberglass Walkway Panels are made from Thermoset Polyester Fiber Reinforced Polymer panels coated with a mineral abrasive epoxy. Panels are lightweight and ideal for use on structurally sound flooring. Constructed of 0.125" thick fire retardant fiberglass (FRP). They are available in Black, Yellow, and Black with Yellow Stripe in 3 unique grit-coated surfaces: HEAVY DUTY, MEDIUM and LIGHT.

Walkway Panels Benefits

Ready for immediate use upon installation

Can be combined with our Step Covers to improve safety on an entire stairwell

Safe for both forklift and pedestrian traffic

Fully customizable to fit any application

Custom shapes and sizes available upon request

Ideal for oily and wet areas that cannot accept paints or coatings

Made in USA

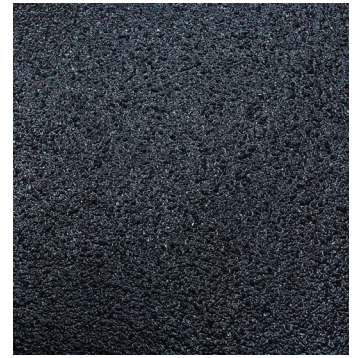

» Walkway Panels

Our Fiber Glass (FRP) products are coated with a proprietary layered blend of mineral abrasive epoxy grit. Slippery surfaces such as gratings, mezzanines, steps, inclines, ramps and floors can be covered with our fiber glass step covers or walkway panels. All are available in YELLOW or BLACK with three distinct grit coating options: HEAVY DUTY, MEDIUM and LIGHT. Walkway Panels meet and exceed OSHA and ADA recommendations for slip resistance.

» Panel Maintenance

Epoxy surface can be swept to loosen and remove dirt. FRP panels can be cleaned using a general purpose industrial cleaner. For caked on dirt, use a stiff bristled brush with the industrial cleaner. Walkway Panels may be pressure washed up to 1500 psi.

Warning: Drilling, sawing, sanding or machining fiberglass can expose you to fiberglass dust that contains styrene, a substance that is known to the State of California to cause cancer. Avoid inhaling fiberglass dust. For your protection, Proper use of Personal Protection Devices are recommended. For more information go to www.P65warnings.ca.gov
